Bellcore EXCHANGE
Volume 9
January 1993
April 1993
June 1993
September 1993
December 1993

index

A

Aber, Robyn, *Putting together the broadband service puzzle*, June, pp. 20-24.
access requirements for software, Jan, p. 11.
ADSI (Analog Display Services Interface), Dec, p. 8.
ADSL (asymmetrical digital subscriber line) technology, April, p. 24.
Advanced Intelligent Network (AIN), Sept, pp. 2-7, 16; Dec, pp. 8, 9.
AIN: *A smarter platform for service*, Donna J. Bastien, John M. Clark, Geraldine M. Weber, Sept, pp. 2-7.
AIN Releases 0.0, 0.1, 0.2, Sept, pp. 6-7; Dec, p. 9.
alternative access providers, Dec, p. 19.
American Chemical Society, April, p. 19.
American National Standards Institute (ANSI), Jan, p. 4; June, pp. 20, 24.
Ameritech, Jan, p. 5; Sept, pp. 6, 7.
Ameritech Advanced Data Communications Services, June, p. 13.
Ameritech Services, Joyce Kosman, chair of ECSA TCIF-IPI committee, Jan, p. 16.
Ameritech Services, Walt Zelasko vice-chair of document exchange subcommittee of ECSA TCIF-IPI committee, Jan, p. 16.
Analog Display Services Interface (ADSI), Dec, p. 8.
ANSI (American National Standards Institute), Jan, p. 4; June, pp. 20, 24.
application protocols, June, p. 7.
archivable form of an electronic document, Jan, pp. 16-17.
ARPA (Advanced Research Projects Agency, formerly DARPA), June, p. 12.
ARPANet, June, p. 12.
ASCII (American Standard Code for Information Interchange), June, p. 3.
asymmetric coding algorithm, April, p. 23.
AT&T, June, p. 12.
ATM (asynchronous transfer mode), June, pp. 7, 16, 17, 20-24; Dec, pp. 4, 5, 10, 15, 22, 24.
The ATM Forum, June, pp. 20-24.
attributes of software entities, specification, Jan, p. 11.
Aurora project, Dec, p. 16.
automated software development, Jan, pp. 8-11.
automatic generation of code, Jan, pp. 8-11.
automation, Jan, pp. 8-11.

B

BARRNet, June, p. 10.
Basic Electronic Document Delivery service, Jan, p. 16.
Bastien, Donna J., AIN: *A smarter platform for service*, Sept, pp. 2-7.
Bell Atlantic, June, p. 13; Sept, pp. 6, 7, 11, 16, 22; Dec, p. 16.
Bell Atlantic Mobile, Sept, p. 16.
Bellcore TEC (Training and Education Center), Jan, p. 15.
Bell Northern Research, April, p. 23.
Bell of Pennsylvania, Sept, p. 16.
BellSouth, April, p. 8; Sept, p. 7.
BellSouth Science and Technology, April, p. 10.
BellSouth Telecommunications Service Group, Woody Pierce vice-chair of ECSA TCIF-IPI committee, Jan, p. 16.
Bell Telephone Laboratories, April, p. 10.
BEST (Broadband Experimental Systems Testbed), Sept, p. 24.
Bill/800 system, Sept, p. 13.
Books by the byte, Carmen Egido, Jan, pp. 13-17.
Boost '93: Dishing out healthy portions of reality, Kathleen O. Rankin, Sept, pp. 20-24.
bridges (switching systems), June, pp. 5-6.
Briggs, Paul R. Jr., *From hurricanes to fire ants*, April, pp. 8-13.
Broadband Experimental Systems Testbed (BEST), Sept, p. 24.
broadband interoffice facilities, April, pp. 23, 24.
broadband ISDN protocols for signaling and transport, April, p. 24.
Buckley, Mark, *A generalized language for logical structures*, Jan, pp. 18-19.
bulletin boards, electronic, June, p. 11.

C

California State University, June, p. 12.
Carnegie Mellon University, Sept, p. 16.
Caruso, Richard E., *Technological support for new services*, Dec, pp. 6-11.
CCITT (International Telegraph and Telephone Consultative Committee), Jan, pp. 4, 22; April, pp. 7, 22; June, pp. 20, 24.
CCS (common-channel signaling), Sept, pp. 5, 12; Dec, p. 10.
CD-ROM (compact-disc read-only memory), Jan, p. 14.
cell-relay service, June, pp. 18, 19; Dec, p. 10.
certification of equipment, June, p. 24.
Chang, Fred, Pacific Bell, use of the Internet, June, pp. 9, 10.
Charting the future with an eye on today, George H. Heilmeier, Dec, pp. 2-5.
Chemistry On-Line Retrieval Experiment (CORE), April, p. 19.
Chester Research and Engineering Center, Bellcore, April, pp. 8-10, 12.
Cincinnati Bell Telephone Company, June, p. 12; Sept, pp. 7, 11.
circuit, physical, June, p. 4.
circuit, virtual, June, p. 4.
Clark, John M., *AIN: A smarter platform for service*, Sept, pp. 2-7.
CLASS℠ services, Dec, p. 8.
Clinton Presidential administration, June, pp. 11, 12.
CNA (Customer Network Administration) system, Sept, p. 23.
CodeGen, Jan, pp. 8-11.
CodeGen Data Dictionary, Jan, pp. 9, 11, 12.
common-channel signaling (CCS), Sept, pp. 5, 12; Dec, p. 10.
ComNet trade show, June, p. 23.
competitive access providers, Dec, p. 19.
compression, video, April, pp. 21-23.
Computer Systems Policy Project, June, p. 12.
conformance testing, June, p. 24.
connectionless networks, June, p. 4.
connection-oriented networks, June, p. 4.
consistency checking of a logical data model, Jan, p. 11.
cooperation across industry, June, pp. 20-24.
copyright protection, June, pp. 12, 13.
CORE (Chemistry On-line Retrieval Experiment), April, p. 19.
Cornell University, April, p. 19.
corporate data layer of OSCA™ architecture, Jan, p. 9.
Cotton, Chase, *Packet communications Part 1: Bits to gigabits*, June, pp. 2-7.
CSUNet, June, p. 12.
Customer Network Administration (CNA) system, Sept, p. 23.
customized documentation, Jan, p. 14.

D

Dartmouth College, June, p. 13.
Database Service Management, Inc., Sept, p. 13.
data communications, June, pp. 2-7.
data-communications market, June, pp. 20-24.
data dictionary, CodeGen, Jan, pp. 9, 11, 12.
datagram, June, p. 4.
data layer of the OSCA™ architecture, Jan, p. 17.

CLASS is a service mark and OSCA is a trademark of Bellcore.

data storage, April, pp. 21, 24.
deliverable, standardized external, for an electronic document, Jan, pp. 16-17.
DEMON (Delivery of Electronic Multimedia Over the Network), Jan, pp. 15, 20-24.
Digital Data Service (DDS), June, p. 5.
digital loop carrier systems, April, p. 10.
distance learning, June, pp. 8, 11, 13.
documentation, electronic, Jan, pp. 13-17.
documentation, software, automatic generation of, Jan, p. 12.
document delivery, electronic, Jan, pp. 13-17.
Document Type Definition, SGML, Jan, p. 19.
DS1 service, June, p. 5.
DS1 service, June, pp. 9, 10.
DS3 service, June, p. 5.
Duffy, Francis P., *Putting 800-number portability in place*, Sept, pp. 8-13.

E

ECSA (Exchange Carriers Standards Association), Jan, pp. 4, 16.
EDD '92 conference, A vehicle for change, Jan, p. 15.
EDD (electronic document delivery) conferences, Bellcore and BCCs, Jan, pp. 14, 15.
Edwards, Brenda E., *Testing PCS in Pittsburgh*, Sept, pp. 14-19.
Egan, Dennis E., *A super way to search for information*, April, pp. 14-19.
Egido, Carmen, *Books by the byte*, Jan, pp. 13-17.
800 Data Base Service, Sept, pp. 8-13; Dec, p. 6, 8.
800-number portability and service, Sept, 8-13; Dec, p. 6, 8.
electronic document delivery (EDD), Jan, pp. 13-17.
electronic mail, June, pp. 9, 10, 11, 12.
Electronic Receptionist, Jan, p. 7.
electronic text production, Jan, pp. 18-19.
electronic village, Bell Atlantic, June, p. 13.
Enterprise Network Roundtable of The ATM Forum, June, p. 23.
environmental testing of fiber-in-the-loop components, April, pp. 8-13.
error detection, June, pp. 5, 7.
ethernet, June, pp. 4-5.
ETSI (European Telecommunications Standards Institute), June, pp. 20-22.
evolution of networks, April, p. 24.
Exchange Carriers Standards Association (ECSA), Jan, pp. 4, 16.
EXPANSE system for multiparty, multimedia networks, Sept, pp. 22, 24.

F

fast-packet industry forums, June, pp. 20-24.
fault density of software, Jan, pp. 8-11.
Federal Communications Commission (FCC), Sept, pp. 8, 11, 13.
Federal Broadband Users Group, June, p. 23.
fiber-in-the-loop components, April, pp. 8-13.
fiber splices and connectors, environmental effects on, April, p. 12.
fiber to the curb, April, pp. 10, 12, 13.
fiber to the home, April, pp. 11, 12, 13.
Fiorelli, Maureen E., *Putting 800-number portability in place*, Sept, pp. 8-13.
fire ants, April, pp. 10, 11.
FITL (fiber in the loop), April, pp. 10-11, 12.
FLEXCOM™/linc system, April, p. 4.
flow control in transport protocols, June, p. 7.
forums, industry, June, pp. 20-24.
frame-relay service, June, pp. 7, 13, 17, 20-24; Dec, p. 9, 10.
Frame Relay Forum, June, pp. 20-24.

G

Gelman, Alexander D., *A video store as close as your phone*, April, pp. 20-24.
A generalized language for logical structures, Mark Buckley, Jan, pp. 18-19.
generalized markup, Jan, pp. 18-19.
General Services Administration (GSA), June, p. 23.
generic requirements, Jan, p. 19; June, pp. 22, 23.
Global Enterprise Services, Inc., June, p. 12.
Gore, Albert Jr., June, p. 11.
Grove, N. Michael, *Regulation and public policy in transition*, Dec, pp. 18-19.
GTE, Sept, p. 11; June, p. 12.

H

Handler, Gary J., *Technological support for new services*, Dec, pp. 6-11.
HDSL (high-bit-rate digital subscriber line) technology, April, p. 24.
Heilmeier, George H., *Charting the future with an eye on today*, Dec, pp. 2-5.
High Performance Computing Act of 1991, June, p. 11.
H.261 video coding standard of CCITT, April, p. 22.
Hurricane Andrew, April, p. 9.
From hurricanes to fire ants, Paul R. Briggs, Jr., Lawrence M. Slavin, April, pp. 8-13.
hypertext, Jan, p. 19; April, pp. 14-19.
HyTime (Hypermedia/Time-based Structuring Language), Jan, p. 19.

I

ICA (International Communications Association), June, p. 23.
IEEE (Institute of Electrical and Electronics Engineers), June, p. 22.
industry cooperation, June, pp. 20-24.
information infrastructures, June, pp. 8-13.
information networking, June, pp. 3-4.
Information Networking Architecture (INA), Dec, p. 17.
information retrieval, April, pp. 14-19.
information warehouse, April, pp. 20-21, 23-24.
infrastructure, June, pp. 8-13.
inquiry contracts, Jan, p. 12.
insecticide effects on telecommunications equipment, April, p. 10.
Integrated Service Control Point (ISCP), Sept, pp. 16, 17, 18.
integrated services digital network (ISDN), Jan, pp. 5, 20-24; April, p. 19; June, pp. 7, 12, 13; Sept, p. 7; Dec, pp. 4, 11.
Integrated Traffic Engineering (ITE) system, Sept, p. 22.
integrity rules in a logical data model, Jan, p. 11.
intelligent network, Sept, p. 5.
intelligent-network technologies, evolution since divestiture, Dec, pp. 6-11.
intelligent-peripheral system, Sept, p. 7.
intelligent processes of CodeGen software generator, Jan, pp. 11-12.
intercarrier working group of SMDS Interest Group, June, p. 24.
interdependence, June, pp. 20-24.
interface specifications, June, p. 23.
International Telegraph and Telephone Consultative Committee (CCITT), Jan, pp. 4, 22; April, pp. 7, 22; June, p. 20.
The Internet, June, pp. 6-7, 9-10, 11-12, 13, 24; Dec, p. 23.
Internet Protocol (IP), June, pp. 7, 9.
INTEROP trade show and Interop Company, June, p. 22.
interoperability, June, pp. 20-24.
ISCP (Integrated Service Control Point), Sept, pp. 16, 17, 18.
ISDN (integrated services digital network), Jan, pp. 5, 20-24; April, p. 19; June, pp. 7, 12, 13; Sept, p. 7; Dec, pp. 4, 11.
ISDN-1, Sept, p. 7; Dec, p. 11.
ISO, or the International Organization for Standardization, Jan, pp. 16, 19, 22; April, pp. 7, 21, 22; June, p. 5.
ITE (Integrated Traffic Engineering) system, Sept, p. 22.

J

Job database, Jan, pp. 8-11.
Job/UI operations system, Jan, pp. 8-11.
JPEG (Joint Photographic Experts Group) of ISO, April, p. 22; Jan, p. 22.
JPEG standard, Jan, p. 22.
JVNCnet, June, pp. 9, 12.

K

Klein, Fred, *Fast packets for the telecommunications market*, June, pp. 14-19.
Knowledge Network, Pacific Bell, June, p. 13.
Ku, Vicki P., *Seeing the forest and the trees*, April, pp. 2-7.

L

LAN (local-area network), June, pp. 4-7, 14, 9, 10; Dec, pp. 15, 23.
Lang, Kathy, *A vehicle for change*, Jan, p. 15.
legal and technical issues of EDD (electronic document delivery), Jan, pp. 15, 16.
LEIS™ system, Sept, p. 24; Dec, p. 15.
Liaw, Yee S., *The software factory*, Jan, pp. 8-11.
line card, video, April, pp. 21, 23.
local-area network (LAN), June, pp. 4-7, 14, 9, 10; Dec, pp. 15, 23.
local management interface (LMI) for frame relay, June, p. 24.
Lockheed IMS, Sept, p. 13.
logical structure of a document, Jan, pp. 18-19.
long-distance-service providers, June, pp. 20-24.
Looking ahead, Robert W. Lucky, Dec, pp. 20-25.
Louisiana, April, pp. 8-13.
Lucky, Robert W., *Looking ahead*, Dec, pp. 20-25.

M

MAC (media access control) protocols, June, pp. 6-7.
macros, Jan, p. 19.
Making telecommunications nomadic, David L. Turock, Richard S. Wolff, Jan, pp. 2-7.
manufacturers of network equipment, June, pp. 20-24.
markup languages for electronic text production, Jan, pp. 18-19.
Martin, Robert L., *Operations systems for the revolution*, Dec, pp. 12-17.
MCI, June, p. 12.
Meese, Robert A., Jr., *Regulation and public policy in transition*, Dec, pp. 18-19.
MFJ (Modification of Final Judgment), Dec, p. 18.
Michigan, State of, June, p. 11.
Mobility system, Jan, p. 7.
Modification of Final Judgment (MFJ), Dec, p. 18.
moisture, aging effects on fiber-optic components, April, pp. 8, 12.
monitoring and analysis, of networks, April, pp. 2-7.
Morristown Research and Engineering Center, April, pp. 12-13.
MPEG (Moving Picture Experts Group) of ISO, April, pp. 21-24.
multicasting in frame-relay networks, June, p. 24.
Multimedia delivery over public switched networks, Jonathan Rosenberg, Jan, pp. 20-24.
multimedia transport, Jan, pp. 20-24.

N

NASA, June, p. 23.
national information infrastructure, April, p. 19; June, pp. 6, 8-13; Dec, pp. 3, 4, 23.
National Science Foundation, June, p. 11.
Network and Services Data Base (NSDB) system, April, p. 4.
network-to-network interface (NNI) for frame relay, June, p. 24.
Network Unit Inventory (UI) database, Jan, pp. 8-11.
New England Telephone, June, p. 13.
NMA™ system, April, pp. 2-7; Dec, p. 14.
North American ISDN Users Forum, June, p. 14.
North American Numbering Plan, Sept, p. 10.
NREN (National Research and Education Network), June, p. 11; Dec, p. 23.
NSDB (Network and Services Data Base) system, April, p. 4.
NSFNet, June, pp. 9, 10, 11-12.
NTSC video coding, April, p. 21.
NXX Plan, Sept, p. 10.
NYNEX, June, p. 13; Sept, pp. 7, 24; Dec, p. 16.
NYNEX Science and Technology, June, p. 13.

FLEXCOM, LEIS, and NMA are trademarks of Bellcore.

O

object-oriented document design, Jan, p. 19.
object-oriented software technology, Sept, pp. 20-24.
open-system interconnection (OSI), Jan, p. 19; April, p. 7; June, p. 5.
Operations Provisioning System/Intelligent Network Element (OPS/INE) system, April, p. 5.
operations systems, Jan, p. 9.
Operations systems for the revolution, Robert L. Martin, George C. Via, Dec, pp. 12-17.
OPS/INE (Operations Provisioning System/Intelligent Network Element) system, April, p. 5.
OSCA™ architecture, Jan, pp. 9, 17; Dec, p. 17.
OSI (open-system interconnection), Jan, p. 19; April p. 7; June, p. 5.
OSI protocol stack, June, pp. 5, 6-7.
outside-plant planning and engineering, Jan, p. 9.

P

Pacific Bell, Jan, p. 5; April, p. 15; June, pp. 9, 10, 13; Sept, pp. 7, 24.
Pacific Bell, Art Drake information coordinator of ECSA TCIF-IPI committee, Jan, p. 16.
Packet communications Part 1: Bits to gigabits, Chase Cotton, June, pp. 2-7.
Packet communications Part 2: Fast packets for the telecommunications market, Fred Klein, Greg Ratta, June, pp. 14-19.
packet communications, June, pp. 14-19.
packet switching, June, pp. 2-7, 9, 10.
partnership of institutions, June, pp. 8-13.
partnership, industry, April, pp. 20, 22.
Passero, Paul B., *Testing PCS in Pittsburgh*, Sept, pp. 14-19.
pay-per-view video services, April, pp. 20, 23-24.
PCS (personal communications services), Jan, pp. 2-7; Sept, pp. 3, 6, 7, 14-19; Dec, p. 24.
PENGUIN (Planning and Engineering Graphic User Interface), Sept, p. 22.
permanent virtual connections, June, p. 19.
Perry, Roy, U S WEST Advanced Technologies, June, p. 12.
personal communications services (PCS), Jan, pp. 2-7; Sept, pp. 3, 6, 7, 14-19; Dec, p. 24.
Personal Line service, Sept, pp. 16-19.
Personick, Stewart D., *A vision shared*, June, pp. 8-13.
physical circuit, June, p. 4.
Planning and Engineering Graphic User Interface (PENGUIN), Sept, p. 22.
platform independence, Jan, p. 12.
private virtual network, June, p. 7.
protocols, LAN, June, pp. 5, 6-7.
protocol specifications, June, p. 23.
Public Data Network (PDN), June, p. 5.
Putting 800-number portability in place, Francis P. Duffy, Maureen E. Fiorelli, Michael J. Wade, Sept, pp. 8-13.
Putting together the broadband service puzzle, Robyn Aber, June, pp. 20-24.
quality of software, Jan, pp. 8-11.

R

Ratta, Greg, *Fast packets for the telecommunications market*, June, pp. 14-19.
Regulation and public policy in transition, N. Michael Grove, Robert A. Meese, Jr., Dec, pp. 18-19.
reliability, of networks, Dec, p. 10.
requirements, software, Jan, pp. 10-11, 12.
research, in telecommunications since divestiture, Dec, pp. 20-25.
reuse of information in documentation, Jan, pp. 13, 14, 17.
reuse of software, Jan, p. 12; Sept, pp. 20-24.
Rosenberg, Jonathan, *Multimedia delivery over public switched networks*, Jan, pp. 20-24.
router, June, pp. 9, 10.
router (switching system), June, pp. 6-7.

S

SCP (service control point), Sept, pp. 5, 11, 12.
SEAS™ system, April, p. 6; Dec, p. 8.
Seeing the forest and the trees, Vicki P. Ku, April, pp. 2-7.
self-healing, of networks, April, p. 5.
service-control mechanisms, April, p. 24.
service control point (SCP), Sept, pp. 5, 11, 12.
Service Order Analysis and Control (SOAC) system, Dec, p. 14.
service switching point (SSP), Sept, pp. 5, 11.
S 4 bill, June, p. 11.
SGML (Standard Generalized Markup Language), Jan, p. 16.
SGML (Standard Generalized Markup Language), Jan, pp. 15, 18-19.
SIFT (Simple Information Filtering Tool), Jan, p. 5.
signaling transfer point (STP), Sept, p. 12.
Simple Information Filtering Tool (SIFT), Jan, p. 5.
Slavin, Lawrence M., *From hurricanes to fire ants*, April, pp. 8-13.
SMDS (Switched Multimegabit Data Service), June, pp. 7, 9, 13, 16, 17, 20-24; Dec, pp. 4, 9, 10.
SMDS Interest Group (SIG), June, pp. 20-24.
SMDS Users Group, June, p. 23.
Smoot, Lanny S., *A video store as close as your phone*, April, pp. 20-24.
SMS/800 system, Sept, pp. 11, 13.
SOAC (Service Order Analysis and Control) system, Dec, p. 14.
software development, Jan, pp. 8-11.
The software factory, Yee S. Liaw, Christopher J. Whiting, Jan, pp. 8-11.
software quality, Jan, pp. 8-11.
software requirements, Jan, pp. 10-11, 12.
SONET (synchronous optical network), April, pp. 6, 8, 10; June, p. 5; Dec, pp. 4, 11, 15, 24.
South Central Bell Telephone Company, April, pp. 8, 10.
Southern New England Telephone (SNET), June, p. 12; Sept, p. 11.
Southwestern Bell Telephone Company, Sept, pp. 7, 10, 13, 23.
Southwestern Bell Telephone, Diane Pickler at EDD '92 conference, Jan, p. 15; secretary of ECSA TCIF-IPI committee, Jan, p. 16.
SPACE® system, Sept, pp. 18, 22; Dec, p. 9.
specific markup, Jan, p. 19.
Sprint, June, p. 12.
Sprint Local Telecom Division, Sept, p. 7.
Sprint/United Management Company, Sept, p. 11.
service switching point (SSP), Sept, pp. 5, 12.
standardization of EDD (electronic document delivery), Jan, pp. 14, 15, 16, 17.
standards bodies, June, pp. 20-21, 24.
standards for video compression, April, pp. 21-24.
Stentor, Sept, p. 7.
storage, digital, April, pp. 21, 24.
STP (signaling transfer point), Sept, p. 12.
structures of documents, Jan, pp. 18-19.
subnet protocols, June, pp. 6-7.
SuperBook® system, Jan, pp. 14, 19; April, pp. 14-19.
SuperComm trade show, June, p. 23.
A super way to search for information, Dennis E. Egan, Kathleen B. Timko, April, pp. 14-19.
Switched Multimegabit Data Service (SMDS), June, pp. 7, 9, 13, 16, 17, 20-24; Dec, pp. 4, 9, 10..
switched virtual connections, June, p. 19.
synchronous optical network (SONET), April, pp. 6, 8, 10; June, p. 5; Dec, pp. 4, 11, 15, 24.

T

TCIF (Telecommunications Industry Forum), Jan, p. 19.
TCIF-IPI (Telecommunications Industry Forum, Information Products Interchange committee), ECSA, Jan, pp. 16, 17.
TCP (Transmission Control Protocol), June, p. 7.
Technical Information Resource Management (TIRM) organizations in Bellcore's client companies, Jan, pp. 14, 16.
Technological support for new services, Richard E. Caruso, Gary J. Handler, Dec, pp. 6-11.
technology initiative, Clinton administration, June, pp. 11, 12-13.
Technology Management Module (TMM), Sept, p. 22.
temporary logical directory number (TLDN), Sept, p. 17.
test cases, Jan, p. 12.
testing and certification of equipment, June, p. 24.
Testing PCS in Pittsburgh, Brenda E. Edwards, Paul B. Passero, Sept, pp. 14-19.
text browsers, computerized, Jan, pp. 14, 16.
text production, electronic, Jan, pp. 18-19.
Timko, Kathleen B., *A super way to search for information*, April, pp. 14-19.
TIRKS® system, April, p. 4.
TLDN (temporary logical directory number), Sept, p. 17.
token rings, June, pp. 4-5.
transparency, of services, Jan, p. 3.
transport protocols, June, p. 7.
Turock, David L., *Making telecommunications nomadic*, Jan, pp. 2-7.

U

UI (Network Unit Inventory) database, Jan, pp. 8-11.
United States Telephone Association, Sept, p. 11.
usability, June, p. 12.
User Datagram Protocol (UDP), June, p. 7.
user-to-network interface (UNI) for ATM, June, p. 24.
user-to-network interface (UNI) for frame relay, June, p. 24.
U S WEST, Jan, p. 5; April, pp. 4, 12; June, p. 13; Sept, p. 7.
U S WEST, Jay Hamlin at EDD '92 conference, Jan, p. 15.
U S WEST Advanced Technologies, June, p. 12.

V

A vehicle for change, Kathy Lang, Jan, p. 15.
Via, George C., *Operations systems for the revolution*, Dec, pp. 12-17.
videocassette recorders, June, p. 8.
video compression, April, pp. 21-23.
